Parentology Dalton Conley 2014-03-18 An award-winning scientist offers his unorthodox approach to childrearing: "Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions" (Amy Chua, author of *Battle Hymn of the Tiger Mother*). If you're like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In *Parentology*, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley's sassy kids show him the limits of his profession. *Parentology* teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You'll be laughing and learning at the same time.

Twisted History Howard Watson 2015-02-05 Twisted History brings to life the incredible stories of 32 historical figures -- murderers, assassins and traitors who embraced the dark side, and martyrs and innocents who paid with their lives in the pursuit of good. All changed world history. The book is lavishly illustrated with stunning illustrations and period photographs. Accessible text and fact boxes describe evil and angelic acts across the centuries, like Judas, whose name would come to define betrayal, Joan of Arc, victorious virgin soldier and patron saint of France, and René Goupil, tortured and martyred by Native Americans, who became the first American saint. Twisted History puts readers face to face with vile villains and true heroes. They include: William Wallace, the Scottish hero who was hanged, drawn and quartered by the English for high treason (c.1270-1305) Vlad the Impaler, who enjoyed torturing and impaling his victims (1431-76) Bernie Madoff (1938-), architect of the biggest financial scam in history, a \$65-billion Ponzi scheme that shattered banks, insurance companies and private investors Kazuo Taoka, boss of the most powerful and merciless Japanese yakuza gang (1913-81). Twisted History is an engaging, informative and gripping read for all teen and adult readers.

Songs in the Key of Z Irwin Chusid 2000 Outsider musicians can be the product of damaged DNA, alien abduction, drug fry, demonic possession, or simply sheer obliviousness. This book profiles dozens of outsider musicians, both prominent and obscure—figures such as The Shaggs, Syd Barrett, Tiny Tim, Jandek, Captain Beefheart, Daniel Johnston, Harry Partch, and The Legendary Stardust Cowboy—and presents their strange life stories along with photographs, interviews, cartoons, and discographies. About the only things these self-taught artists have in common are an utter lack of conventional tunefulness and an overabundance of earnestness and passion. But, believe it or not, they're worth listening to, often outmatching all contenders for inventiveness and originality. A CD featuring songs by artists profiled in the book is also available.

But the idyllic town proves to be anything but serene: Within weeks, the sisters-in-law are scrambling to prepare for their first big booking—a winter wedding—and soon a shy, mysterious woman comes to work for them. Dawn Zukoski is hiding something; that much is clear. But what the sisters-in-law don't realize is that Dawn is also hiding from someone...
