*Parentology* Dalton Conley 2014-03-18 An award-winning scientist offers his unorthodox approach to childrearing: “Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions” (Amy Chua, author of *Battle Hymn of the Tiger Mother*). If you’re like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In *Parentology*, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley’s sassy kids show him the limits of his profession. *Parentology* teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You’ll be laughing and learning at the same time.

**Lancia Hyena Zagato** Maurizio Grasso 2015-11-15 "We have to recreate the enthusiasm that surrounded the SPORT models, ever a synonym for the Lancia Zagatos": in 1991 this was the brief the recent graduate Andrea Zagato gave to Marco Pedracini, a young designer who had not long been hired by prestigious coachbuilder. It was out of this fortuitous and fortunate coming together of this far-sighted idea and the enthusiasm of Paul Koot, a Dutch fan and a businessman in the automotive sector, that an icon was born, the HYENA. A beautiful car, but one practically unknown to the general public. A car that could have repeated and even surpassed the commercial and sporting success of the Lancia Delta Integrale from which it was derived. Unfortunately just 24 examples were produced due to the debateable decision taken by the Fiat/Lancia directors of the time. Following a rapid review of the evolution of the Lancia Delta over the year, this book, written by an enthusiastic collector, examines the difficult genesis of the Hyena, from the first steps with the publication of the very first (previously unpublished) sketches and numerous photos and then follows its development, engineering and production through to its presentation at the car shows and in brochures. The book is completed by a comprehensive technical section, with the project list and the spare parts catalogue as well as an extensive photographic portrait of one particular example, N. 20. Lastly, all 24 Lancia Hyenas are examined, with the intention of reconstructing their specifications, their destination and the country in which they are jealously conserved by the enthusiast and collectors who possess a precious example.

*Una vita senza patente* Stefano Garavini 2020-03-14 Stefano Garavini racconta in prima persona la sua storia di ragazzo cresciuto sulla riviera romagnola, nel mito dei motori, delle serate in discoteca e delle bevute tra gli amici. E proprio quelle bevute, unite alla scellerata decisione di mettersi alla guida di una macchina o di una moto, gli sono costate per ben otto volte la patente. Tra ritiri lievi e ritiri più lunghi, con alte pene pecuniarie e l'obbligo di

lavori socialmente utili, si caratterizzano così circa venti anni della sua vita, durante i quali Stefano si trova a dover pagare le conseguenze delle sue imprudenti scelte, dal problema di rimanere appiedato e quindi più limitato negli spostamenti, fino a quello di dover convivere col senso di colpa per aver deluso la propria famiglia, in special modo la madre. E poi anche per aver deluso se stesso, quando, all'ennesimo ritiro, di fronte alla promessa che sarebbe stato l'ultimo, inevitabilmente ci ricascava. In un libro personale e significativo, l'autore, attraverso il racconto, a tratti leggero e con note umoristiche, della sua esperienza, lascia un messaggio di grande importanza, mettendo in guardia tutti dal pericolo di sottovalutare gli effetti dell'alcol, soprattutto al volante.

**Lancia Rally Group B** Sergio Remondino 2021-09-30 The Group B cars marked one of the most thrilling yet most tragic periods in the history of world rallying and beyond. The 037, the S4, the EVC and the ECV2, "ephemeral player" of a still-born Group S, were the unforgettable protagonists of the 1982-1986 seasons that for the Lancia marque were constellated by a series of World, European and Italian titles, but also by terrible accidents that cost the lives of Attilio Bettega, Henri Toivonen and Sergio Cresto. Sergio Remondino, a historic journalist and great expert in the multifaceted field of rallying, traces that unforgettable era, year by year, through a text rich in anecdotes and thanks to the contribution of the engineer Sergio Limone, one of the artificers of the Group B cars. This invaluable book is completed by the evocative images of Reinhard Klein, one of the most successful rallying photographers.
