How to Change Your Mind Michael Pollan 2018-05-15 “ Pollan keeps you turning the pages . . . cleareyed and assured. ” —New York Times A #1 New York Times Bestseller, New York Times Book Review 10 Best Books of 2018, and New York Times Notable Book A brilliant and brave investigation into the medical and scientific revolution taking place around psychedelic drugs--and the spellbinding story of his own life-changing psychedelic experiences When Michael Pollan set out to research how LSD and psilocybin (the active ingredient in magic mushrooms) are being used to provide relief to people suffering from difficult-to-treat conditions such as depression, addiction and anxiety, he did not intend to write what is undoubtedly his most personal book. But upon discovering how these remarkable substances are improving the lives not only of the mentally ill but also of healthy people coming to grips with the challenges of everyday life, he decided to explore the landscape of the mind in the first person as well as the third. Thus began a singular adventure into various altered states of consciousness, along with a dive deep into both the latest brain science and the thriving underground community of psychedelic therapists. Pollan sifts the historical record to separate the truth about these mysterious drugs from the myths that have surrounded them since

the 1960s, when a handful of psychedelic evangelists inadvertently catalyzed a powerful backlash against what was then a promising field of research. A unique and elegant blend of science, memoir, travel writing, history, and medicine, *How to Change Your Mind* is a triumph of participatory journalism. By turns dazzling and edifying, it is the gripping account of a journey to an exciting and unexpected new frontier in our understanding of the mind, the self, and our place in the world. The true subject of Pollan's "mental travelogue" is not just psychedelic drugs but also the eternal puzzle of human consciousness and how, in a world that offers us both suffering and joy, we can do our best to be fully present and find meaning in our lives.

Maison Ines de la Fressange 2018-10-02 A duo of high-profile tastemakers invite readers inside fifteen homes that are infused with the blend of vintage and contemporary style that is the essence of Parisian chic. Style icon Ines de la Fressange and globe-trotting artist Marin Montagut share a uniquely Parisian sensibility for interiors that combine a variety of design traditions into a

harmonious living space. With extensive photographs, watercolor illustrations, mood boards, color palettes, and practical advice on the indispensable objects that personalize each maison, this exquisite volume is rich in inspiration for creating Parisian chic at home. Natural materials—wood, wicker, bamboo, cotton, and linen—create warmth and personality. Vintage suitcases, vegetable crates, and jewel-toned pharmaceutical jars transform into charming storage containers. Embroidered cushions, terrariums, and fresh flowers enliven a room with pops of color. Collages, original art, or humble objects displayed in a series add a signature style to each residence. The authors take readers inside fifteen Parisian apartments—including their own—that demonstrate how to imbue a home with a sense of well-being through a mix of vintage and contemporary styles. Each owner is passionate about home decor—whether in a studio, loft, or duplex—and they continually evolve their interior with new treasures uncovered in flea markets, on their travels, at design fairs, or in artisanal workshops.

The Calm Workbook Life of School the 2021-05-25 A therapeutic and consoling workbook with exercises to soothe anxiety and create a state of calm. Most of us long to be a little calmer: too many of our days are lost to agitation and worry, stress and discord. Yet we know that we are at our best when we can manage not to panic and take challenges in our stride. Fortunately, a calm state of mind is not a divine gift. Even those of us starting from a more agitated position can systematically understand and lay claim to it. Too many books on this subject simply explain what it would be like to be calm. This is a workbook that takes us through the practical steps required to actually become calm. It is filled with exercises and prompts that deliver the self-understanding and self-compassion on which true serenity depends. Furthermore, the book invites us to build calming routines into our daily lives so that what we learn can stick with us and change us for the long term. Based on years of The School of Life's work in the area of anxiety and calm, this is a landmark workbook guaranteed to bring about the calmer state of mind we long for and deserve.

Passport Sophia Glock 2021-11-30 An unforgettable graphic memoir by debut talent Sophia Glock reveals her discovery as a teenager that her parents are agents working for the CIA. Young Sophia has lived in so many different countries, she can barely keep count. Stationed now with her family in Central America because of her parents' work, Sophia feels displaced as an American living abroad, when she has hardly spent any of her life in America. Everything changes when she reads a letter she was never meant to see and uncovers her parents' secret. They are not who they say they are. They are working for the CIA. As Sophia tries to make sense of this news, and the web of lies surrounding her, she begins to question everything. The impact that this has on Sophia's emerging sense of self and understanding of the world makes for a page-turning exploration of lies and double lives. In the hands of this extraordinary graphic storyteller, this astonishing true story bursts to life.

Pre-Incident Indicators of Terrorist Incidents Brent L. Smith 2011-01 This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.

A Gentleman in Moscow Amor Towles 2019-03-26 The mega-bestseller with more than 2 million readers, soon to be a Showtime/Paramount series starring Ewan McGregor as Count Alexander Rostov From the #1 New York Times-bestselling author of *The Lincoln Highway* and *Rules of Civility*, a beautifully transporting novel about a man who is ordered to spend the rest of his life inside a luxury hotel In 1922, Count Alexander Rostov is deemed an unrepentant aristocrat by a Bolshevik tribunal, and is sentenced to house arrest in the Metropol, a grand hotel across the street from the Kremlin. Rostov, an indomitable man of erudition and wit, has never worked a day in his life, and must now live in an attic room while some of the most tumultuous decades in Russian history are unfolding outside the hotel ' s doors. Unexpectedly, his reduced circumstances provide him entry into a much larger world of emotional discovery. Brimming with humor, a glittering cast of characters, and one beautifully rendered scene after another, this singular novel casts a spell as it relates the count ' s endeavor to gain a deeper understanding of what it means to be a man of purpose.

Parentology Dalton Conley 2014-03-18 An award-winning scientist offers his unorthodox approach to childrearing: “ Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions ” (Amy Chua, author of *Battle Hymn of the Tiger Mother*). If you ' re like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In *Parentology*, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley ' s sassy kids show him the limits of his profession. *Parentology* teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You ' ll be laughing and learning at the same time.
